

Create a nanoGPT-model with ≈ 200000 parameters and train it with the text Alice.txt until val acc ≈ 0.55 , and generate 1000 new characters starting from 'Alice'

Alice to her eyes going to
her mouse, and a minute or two, looked aloud for at least as well, up and
she added like it very comfortable, "Have been at you. That is cats
no hear a for things inight!"

"I'm sure pleased too dry the eggs," the Dormouse, in remarking at her.

"Yes," said Alice, in a sigh.

"You beg to be seen," said the Mouse to himself, (it very body his a
time tone, just down, as the road about a first, if the time, you're
head of I know I ever than't three growled be at little a birds, trouble
she'll govern at last her remark of her savageness across—you might a deal to
as the time. I wonder find have crashes—I knew I see, I'm to here?"

"It's a not getting here—and ever, you know, I can't believe never house, when I I so
don't get out it! Oh my But you cat certain!" She thought his head: curiously
down with the top of it was out of—certainly, I'm I grow as like
_feeble, so enough it idea to condole."

"I the cats?" said the Rabbit in a writing, to say, "Which the moral's—it's
now!"
